Classroom Enhancement Grants

Thank you for your interest in a Clarenceville Education Foundation Classroom Teaching & Learning Enhancement Grant. CEF Grants were created with the specific purpose of funding projects that enhance the existing curriculum. In your grant request, please address the following:

1. Please explain your project including: purpose of the project, how the project will be implemented and how materials will be utilized.
2. How is this project consistent with the District curriculum?
3. How will you evaluate your project?
4. Include an itemized budget.
5. Include any research that supports the success of this type of project (paragraph format, do not just site websites) OR explain how the project is a creative approach to improving the implementation of district content standards.
6. Can this project be scaled up to include/impact more students? If yes, how?

The following are excluded from CEF teacher grant funding:

- Pilot programs
- Costs for transportation, field trips, parties or released time.

Unfortunately, CEF does not have the funds to approve every request. The Grant Committee works with the Asst. Superintendent of Learning Services, building principals, and the Superintendent to evaluate the grants. Please note we encourage new ideas from our teachers and typically will not award grants for projects that are duplicates of previously awarded grants.

CEF Grant applications are evaluated on the following:

- Innovative classroom & curriculum enhancements that will improve teaching & learning
- Grant request is understandable, thorough & complete
- Materials and ideas that can be shared among other classes (at the same school)
- Meets Effective Instructional criteria (pedagogy)
- Sustainability beyond one school year (permanent vs. consumable)
- Number of students served vs. cost
- Evaluation process is in place
- Budget is thorough and complete
- Research summary OR explanation of content standard connection

Expectations of Grant Recipients - If you receive a grant you will be expected to do one of the following:

- Present implementation and results at either a CEF or School Board Meeting
- Invite several CEF board members to your classroom when implementing the project
- Attend a CEF or School event and talk about your project

If you have any questions please contact Paul Shepich at paul.shepich@clarencevilleschools.org.
